INFINIGOLD

pmgt-contracts

↑ Top

The Perth Mint Gold Token (PMGT) is an ERC20 compliant token, each representing 1 fine troy ounce of physical gold securely stored in The Perth Mint's central bank grade vaults.

Developed by InfiniGold, the tokens are 100% backed by GoldPass certificates issued by The Perth Mint, the world's largest refiner of newly mined gold. Every ounce of gold is guaranteed by the highly rated sovereign entity - the Government of Western Australia.

See the [PMGT whitepaper](#) for more information.
